British Forces In First Clash With Germans

First Encounter Occurred At Namsos North Of The City Of Trondheim

London, April 19.—(AP)—Allied forces, including the first reported encounter of British and German land forces in Norway, fought today toward a head-on clash of European belligerents on the Scandinavian battlefield.

A British news agency, Reuters, reported from Stockholm that the first encounter occurred at Namsos, on the Atlantic coast 100 miles north of the key city of Trondheim.

Dispatches reaching the Swedish capital said the German forces had been repulsed. Swedish frontier reports said the British had picked up the British for their first troop landings while Norwegian forces concentrated at Steinkjer, 30 miles north of Trondheim.

Nazis Rushed North
Apparently the Germans had been rushed north from the German-controlled, strategic Trondheim region to meet the British landings. The British had been reported to have landed at Namsos, on the Atlantic coast 100 miles north of the key city of Trondheim.

The newspapers held that the Germans had been cut off from effective help from the German fleet, which was described as crippled in the first week of the Norwegian campaign.

The British war office's second line of communication since the spread of the war to Norway April 9, held yesterday of continuing debarcation of British troops on Norway's shores.

The London News-Chronicle demanded quicker action from the British government, about the same time, said contact had been made with allied forces "by sea and land" and that the first allied landed officers had reached Norwegian army headquarters.

The London News-Chronicle demanded quicker action from the British government, about the same time, said contact had been made with allied forces "by sea and land" and that the first allied landed officers had reached Norwegian army headquarters.

Authoritative diplomatic quarters charged the British government was not treating the Norwegian front as a "showdown" and that the German would encounter the full might of the allied forces.

Arthur Salter, parliamentary secretary of the ministry of shipping, declared in a speech last night that the British merchant marine is as strong as ever despite Germany's torpedo, magnetic mine and other attacks.

In the past seven months, he said, "the enemy has destroyed less than three per cent of our ships."

The latest loss to British shipping was the torpedoing of the iron ore steamer Swanby, 8,905 tons, Wednesday night off North Scotland, after it had escaped capture in the German occupation of Narvik, Norway's far northern port, April 9.

The sinking was disclosed when the 30-man crew was landed at Scottish port.

An air raid warning was sounded yesterday in the Shetland Islands.

HEY! ARE YOU TRYING TO TWO-TIME ME?

Goebbels Bitter Over Propaganda Of The British

Berlin, April 19—(AP)—British efforts to bring about a split between Adolf Hitler and the German people is "the most stupid phase" of British war politics, propaganda minister Paul Joseph Goebbels said tonight on a radio address on the eve of Hitler's fifty-first birthday anniversary.

Goebbels asserted that in the unity that exists between the Fuehrer and the German people lies the Reich's greatest strength.

"The German people laugh at such efforts," Goebbels said. He added that Hitlerism is the main issue of the war is completely discounted by the German people, who realize that the existence of the Reich is at stake and that defeat now would mean a disastrous peace.

Goebbels' voice shook with emotion as he uttered a tribute to Hitler.

"All work, none complain, all eagerly await his word of command," he said, "figuratively, the whole nation will parade past him tomorrow. In the procession will be the soldiers in Norway, the men in the U-boats, farmers, laborers, the home and the battle fronts."

"The prayer in every heart and the words on all lips will be 'long live our Fuehrer.'"

Goebbels emphasized repeatedly the current favorite theme of Nazi orators—"The unshakable solidarity of Hitler and all Germans."

Arrangements had been made for the broadcast to go to all parts of the world. The talk was a curtain-raiser to nation-wide observance of the anniversary. But it was explained that, because the energies of the nation are devoted to waging war, there will be no elaborate festivities.

Unanimous Vote Of Confidence For French Premier

Paris, April 19—(AP)—The chamber of deputies tonight gave the govern- ment of Premier Paul Reynaud a unanimous vote of confidence.

The vote, 504 to 0, came in a pub- lic session immediately after a secret session on general governmental poli- cies and the conduct of the war. It was the second vote of confi- dence for Reynaud's cabinet, which took office March 21. It contrasted sharply with the first vote, on March 22, in which there was only a one-vote majority, though that later was increased to 17 votes by changes of stand by a number of deputies.

The chamber also adopted unani- mously a motion of homage to the French armies and the Norwegian people.

Reynaud entered the chamber's one-day secret debate with his hand strengthened by an enthusiastic re- ception accorded his war policies by the senate yesterday.

Legislation To Amend Wagner Act Taken Up Soon

Washington, April 19—(AP)—The house rules committee unexpectedly cleared the way today for the house to take up soon legislation to amend the Wagner act.

Procedure which the committee ap- proved, 9 to 1, would permit the house to consider both the set of four amendments approved by the house labor committee and the more sweeping changes put forward by the Smith committee—the independent house group headed by Rep. Smith (D-Va) which investigated the labor board recently.

Rules committee men said this pro- cedure would permit "wide open" debate on the entire question of Wagner act changes.

The labor committee's amendments would increase the labor board from three to five members, protect craft union, permit employers to petition the labor board for a collective bar- gaining election—and insure for at

least one year the valid operation of a legal employer-employee con- tract.

A majority of the Smith com- mittee would create a new national labor board, separate its judicial and administrative functions and revamp much of the board's current pro- cedure.

Chairman Sabath (D-Ill) of the rules committee said that of the 10 members of the committee voting, he was the only one to oppose the procedure.

"It would set up a most dangerous precedent," Sabath said. "It is the most drastic rule ever reported by our committee."

The exact time when the so-called "rule" on the two sets of amend- ments can be presented to the house will depend largely on the wishes of administration leaders.

Says Candidates For Presidency Spend Too Much

Washington, April 19—(AP)—The senate campaign investigating com- mittee today ordered an investiga- tion of complaints that "excessive" sums of money were being spent in behalf of some aspirants for the presidency.

Senator Gillette (D-Iowa), com- mittee chairman, said that the com- plaints had been received "from apparently reliable sources."

He declined to name the candi- dates or the party involved but said that thus far charges affected only one party.

The committee approved a motion instructing Gillette to assign in- vestigators to study the complaints, the source of which was not dis- closed.

"I have not yet acted," Gillette

told reporters, "but I will act."

Gillette said he had received re- ports that the National Association of Manufacturers was circulating its membership for funds in con- nection with congressional races. He has requested his informants, he added, to send him copies of any letters sent out by the N. A. M., in any such campaign.

The committee also decided to- day, the chairman said, to send in- vestigators into Missouri at once to study reports of the improper use of official influence and the promise of withholding of state patronage not only in the selection of dele- gates to a national convention but in the state senatorial campaign.

NEW FRENCH COINS

Paris (INS)—Twenty million five- franc pieces (211) made of alumi- num and bronze will be put into circulation during the month of April to replace the paper five-franc notes brought out when war declar- ed last September. The paper notes, many of which were used during the last war, were necessary because the aviation industry's demand for nickel forced the government to melt all original five-franc pieces. Much research was carried out be- fore the new composition coin was agreed upon.

DEER PREFERS JAIL CELL

York Village, Me.—(INS)—Protec- tive custody was ordered by the game warden for a deer which as- sailed through town, harried by four dogs. The game warden chased the deer away as the deer was about to take to the water. He brought the animal to the town lockup, where it voluntarily entered one of the cells rather than risk another en- counter with the dogs.

Dahl Visits Mother At Champaign Today

Champaign, Ill., April 19—(AP)—Harold "Whitey" Dahl, 32, veteran of the Spanish civil war who was once condemned to death, returned to his home town, Champaign, to- day for a brief visit with his mother, Mrs. Charles Hamilton and then returned east.

Dahl, who spent two years in a Spanish prison after his death sen- tence had been lifted by his wife's intervention, visited Champaign for the first time in seven years. He also visited briefly with John Dahl, his 90-year old grandfather in Sid- ney, Ill.

Dahl said aviation has "got me into a lot of trouble. But it is the only thing I am interested in. My immediate plans are indefinite."

He planned to fly to New York to rejoin his wife.

Violent Explosions Are Heard On Swedish Coast

Gothenburg, Sweden, April 19—(UP)—Six violent explosions and scattered gunfire off the Swedish coast were heard today.

The explosions were heard during the early morning. Their violence

led persons along the coast to believe they were under attack by the forces of Kankakee.

Residents in other portions of the Gothenburg peninsula, including the heard gunfire from the coast, at the same time reported that what was happening in the Gothenburg area was in the Kankakee area.

STREAMLINING, EXTENDS TO HOT DOG OF 1940

Cincinnati, O.—(AP)—The "hot dog" in the hot dog stand is being set up for the streamlined American baseball fans next summer.

Bill Golding, former University of Cincinnati football player, is laboring with a hot dog stand, resident on the hot dog stand.

Their hot dog stand is from a bakery with the owner and a hard, or horse-drawn, and is ready baked inside the dough bun is placed in a warming rack at the ball park and served to customers.

Golding says the new line for which a patent has been ap- plying—eliminated the annoyance of eating around with knives and forks and mustard and ketchup, and is a trademark to the hot dog stand.
